DESCRIPTION

The Bachelor of Journalism program is unique in B.C., featuring multimedia storytelling experience utilizing the most current technologies. Students use industry-standard software to produce journalism that draws on the full range of multimedia storytelling possibilities, including animation, interactivity, audio, and video. Students participate in academic studies and practical training through seminars, labs, and off-campus work experiences. The Journalism program prepares graduates for such positions as multi-media journalists, editors, researchers, and freelance writers. Our grads also work as communications professionals in such fields as media relations, corporate communications, and public relations. The Bachelor of Journalism gives students valuable transferable skills that can be put to use in many fields of endeavour, including working in a multimedia environment, using social media and journalistic research skills in professional settings, and understanding the many facets of the collection and dissemination of information via the media.

Communication Studies courses are also an important part of the program, including exploration of such issues as media law and ethics, media and diversity, and media and social change.

Faculty members in KPU's Journalism department include award-winning journalists with career experience and academic credentials. Many faculty members continue to work as journalists.
