## DESCRIPTION

In the BSc in Applications of Mathematics program, traditional mathematics courses are combined with specialized courses that enable students to apply their mathematical skills in diverse fields, providing a broad range of options for careers or further education. Students can choose from among three concentrations, Biomathematics, Computational Mathematics and Mathematics Education, that are not readily available at the undergraduate level elsewhere in Canada.

Please note, courses in Years 2, 3, and 4 may not be available on the Richmond campus.

## ADMISSION REQUIREMENTS

Students pursuing a Major in Applications of Mathematics must be admitted to the Faculty of Science & Horticulture.
