## MESSAGE FROM THE CHANCELLOR

**E**ducation is such a critical part of what makes communities better. Through education, we gain perspective, understanding and a foundation for individual and collective success. Today, we celebrate your successes, and recognize how far you have come both personally and professionally.

This is your day, and now is your time. At KPU, you have had the opportunity to be a part of something great. The university is bigger, better and bolder than ever, and this is just the beginning. Like yours, our future is exciting. We are Canada's only polytechnic university, and our graduates are local and global leaders.

The impact KPU has on the community is massive, and your role in that will continue as you set out to achieve new goals. Our alumni have the power to affect change, and they positively impact all of our communities—including ours, right here, at KPU. Your success is the university's success.

It is an honour to have assumed the role of chancellor and I am especially proud to be doing so as a KPU alumnus. Kwantlen Polytechnic University is my university, and it will forever be yours as you continue your journey to success.

To our bigger, better, bolder futures.

Sincerely,

A handwritten signature in black ink, appearing to read "George Melville". The signature is fluid and cursive, written on a light-colored background.

**Dr. George Melville**  
Chancellor

## MESSAGE FROM THE PRESIDENT AND VICE-CHANCELLOR

**O**n behalf of the entire KPU community, I welcome one and all to this happy day of celebration where we honour our spring 2020 graduates.

KPU has a unique mandate in the national post-secondary system and is the largest university of its kind in Western Canada.

We are a learning ecosystem, rooted in a culture of sustainability, creativity and quality that inspires our people and our communities. By thinking and acting together, we transform lives and empower positive change.

We are guided by our strategic plan, VISION 2023 and its 12 goals direct us to improve the experiences of students and employees at KPU; to sustain ourselves, the environment and our diverse cultures; to foster creativity in its many forms; and to do all this with quality.

I am fortunate to work with wonderful colleagues, our Board of Governors, our chancellor, members of the KPU Alumni and Foundation boards, our friends in local, provincial and federal governments, and so many community partners as we work towards this vision together.

Our graduates today will join our existing alumni and make their way into the world of work, citizenship and further learning, reflecting the best of KPU to our communities both locally and globally.

Best of luck to you all as you embark on your life journey.

A handwritten signature in black ink that reads "Alan Davis". The signature is written in a cursive, flowing style.

**Dr. Alan Davis**  
President and Vice-Chancellor

## OUR STORY

**K**wantlen Polytechnic University (KPU) is an innovative, transformative and ambitious institution that serves the needs of Metro Vancouver, British Columbia, and beyond. KPU offers a range of degree, diploma, certificate, and citation programs with opportunities for hands-on experience and experiential learning. With campuses in Richmond, Surrey, Cloverdale, Langley, and Civic Plaza in Surrey City Centre, KPU has opened the doors to success for more than 250,000 students for nearly four decades.

Established in 1981 by the Province of British Columbia, KPU proudly adopted the name of the Kwantlen First Nation, whose people are acknowledged historically as 'tireless runners.' The name has proven to be prophetic as KPU, the institution, runs tirelessly to expand its capacity to serve the citizens of Metro Vancouver, the province, the nation, and the world.

As Canada's only polytechnic university, KPU is committed to providing students with a unique learning experience that cannot be found elsewhere, while also providing the ethical framework and critical understanding necessary for good citizenship. The University's commitment to applied research and innovation with external partners enhances the quality of its teaching, and contributes significantly to the economic development of the region.

As a university that allows for multiple interpretations of excellence, students define and design the path to success that's right for them at KPU: where thought meets action.

# HONORARY DEGREE & AWARD RECIPIENTS

## HONORARY DOCTOR OF LAWS | *Honoris Causa*

*Honorary Doctorate Degrees are the highest form of recognition granted by KPU to recognize persons who are distinguished by their significant contributions and accomplishments and whose excellence will reflect positively upon KPU.*

### **Bill Wright**

Bill Wright has been a member of the KPU Foundation Board of Directors for almost 20 years. His leadership was vital to the creation of the Foundation's constitution and bylaws, and his passion for governance has served the Foundation well for many years, ensuring that it properly fulfills its mission to support KPU students with scholarships, awards and bursaries.

Bill is a retired lawyer who focused his practice on the credit union and co-operative system. He is passionate about education and creating quality, lifelong learning opportunities for KPU students.

After graduating from the University of British Columbia in 1960, Bill began his law career with Davis and Company and moved up to become managing partner, over a 30-year period where the law firm grew from 20 lawyers to 100.

With his specialized knowledge of credit union operations, Bill worked with BC Central Credit Union, now known as Central 1, to develop it into an integrated financial facility serving the entire credit union system, including entry into the European financial market. In 1980 the World Council of Credit Unions asked him to prepare a report assisting the Australian credit union movement development on a national scale.

After developing an interest in affordable housing and how housing co-operatives can play a role, Bill assisted in the development and construction of the first housing co-operative in B.C. and served as a national director of the Co-operative Housing Federation of Canada. He has volunteered and continues to volunteer with many non-profit organizations around Metro Vancouver, and in the Downtown Eastside.

## HONORARY DOCTOR OF LAWS | *Honoris Causa*

*Honorary Doctorate Degrees are the highest form of recognition granted by KPU to recognize persons who are distinguished by their significant contributions and accomplishments and whose excellence will reflect positively upon KPU.*

### **Andrew Petter**

Andrew Petter has been a pioneer in education throughout his career. He guided Simon Fraser University's (SFU) development as an "engaged university," enlarging its presence in the City of Surrey, and before that helped establish a graduate law program and Indigenous initiatives while dean of the Faculty of Law at the University of Victoria.

Andrew pursued undergraduate studies at the former Notre Dame University in Nelson, before earning his Bachelor of Laws from the University of Victoria and receiving the Law Society of BC Gold Medal. He subsequently earned a Master of Law with first class honours from Cambridge University. He taught at the University of Victoria (UVic) for five years before being elected to the provincial legislature as MLA for Saanich South in 1991. His decade in politics included numerous cabinet portfolios, including Minister of Advanced Education, Training and Trades from 1998 to 2000, during which time he broke ground on TechBC, subsequently to become SFU's Surrey campus.

In 2001, Andrew returned to academia and became Dean of the Faculty of Law at the UVic. During his tenure, the Faculty created an interdisciplinary graduate law program and worked with northern partners to deliver the Akitsiraq Law School for Inuit students in Nunavut. His academic work has focused on constitutional law and public policy, including Canadian federalism and the Canadian Charter of Rights and Freedoms.

Andrew became President of SFU in 2010 and expanded the university's position within its communities. In Surrey, the construction of the SFU's Sustainable Energy Engineering Building created a physical legacy, but his impact has been felt more broadly in the community through innovative new programs and initiatives. Andrew was appointed to the Order of Canada in 2018 for his commitment and leadership in advancing university-community engagement and higher education throughout the country.

## PROFESSOR EMERITUS

*Emeritus/Emerita is an honorary appointment for life awarded to a retired employee for distinguished service and academic contributions to KPU and establishes a relationship that is both symbolic and active. The emeritus/emerita appointment recognizes distinguished performance of an employee, honours the employee's standing of high regard in the eyes of peers and colleagues, and anticipates the continuation of the employee's academic contributions to KPU past retirement.*

### Sam Migliore

Combining innovative research with dynamic teaching, Dr. Sam Migliore is a distinguished anthropologist and pillar of the KPU community. He is renowned among students and colleagues for his insatiable curiosity, encyclopedic anthropological knowledge and his ability to infect students with a fascination for the subject.

Dr. Migliore began his teaching career at McMaster University in 1984 after attaining his Bachelor's and Master's Degrees in Anthropology at the school. By the time he completed his PhD at McMaster in 1991, Dr. Migliore was an assistant professor at Cape Breton University. He joined KPU in 2000 and taught medical anthropology until his retirement in 2018. He has also served as an adjunct professor at Simon Fraser University and the University of British Columbia.

Through his teaching, Dr. Migliore helped students understand the constraints on the health system and individual wellness. His interest in religion through an examination of witchcraft, vampires and zombies was popular with students. Dr. Migliore was an innovator in visual anthropology, setting up a Mac Lab so students could express their voices through short documentaries. With his wife, Margaret Dorazio-Migliore, he started an annual anthropology conference on the theme of Culture, Community and Wellbeing.

Dr. Migliore is a seasoned scholar and award-winning researcher with an extensive list of publications to his name. He has given dozens of presentations, including as a guest of Third Age Learning at KPU, and he has been appointed to the Vancouver Italian Association Hall of Fame. Dr. Migliore was an integral part of curriculum development, program reviews and faculty and departmental meetings at KPU. He served as a member of various KPU boards and committees, including the Research Ethics Board and the Professional Development Funds Committee.

The KPU community is grateful for the contributions of Dr. Migliore to the institution and its students, and is pleased that his relationship with the university shall continue.

## PROFESSOR EMERITUS

*Emeritus/Emerita is an honorary appointment for life awarded to a retired employee for distinguished service and academic contributions to KPU and establishes a relationship that is both symbolic and active. The emeritus/emerita appointment recognizes distinguished performance of an employee, honours the employee's standing of high regard in the eyes of peers and colleagues, and anticipates the continuation of the employee's academic contributions to KPU past retirement.*

### John Inglis

Across a 28-year career at KPU, Dr. John Inglis helped shape the teaching of mathematics at the university. With a Master's degree in Mathematics from the University of British Columbia (UBC) and more than a decade of teaching behind him, John joined KPU as a mathematics instructor in 1988.

It was in the Mathematics Department where he had the most impact. An admired and collegiate leader, John served as chair of the Mathematics Department on three occasions, the first time being from 1996 to 1998. During his second spell, from 2003 to 2006, he contributed to KPU's move from a university college to a polytechnic university, while the third occasion, from 2012 to 2014, saw him help to launch the Applications of Mathematics bachelor's degree. As a KPU instructor, John helped to develop Math 1135 Problem and Concepts, among other courses. He also wrote multiple manuals for student use.

A lifelong learner, John completed several additional academic courses during his career, including a second bachelor's degree at UBC in 2014, this time in Romance Studies, and 14 years earlier, a PhD in Philosophy at UBC. He also participated in and helped to organize summer mathematics seminars for faculty members.

Since his retirement in 2016, John has taught an advanced logic course in the Philosophy Department. He has also supported the Mathematics Department by teaching a directed studies class and helping to supervise a senior project. During his career, John was a great ambassador for his department, the Faculty of Science and Horticulture, and the university. He has been a valued volunteer at recruitment and outreach events such as Science Rendezvous.

The KPU community is grateful for the contributions of Dr. John Inglis to the institution and its students and is pleased that his relationship with the university will continue.

## PROFESSOR EMERITUS

*Emeritus/Emerita is an honorary appointment for life awarded to a retired employee for distinguished service and academic contributions to KPU and establishes a relationship that is both symbolic and active. The emeritus/emerita appointment recognizes distinguished performance of an employee, honours the employee's standing of high regard in the eyes of peers and colleagues, and anticipates the continuation of the employee's academic contributions to KPU past retirement.*

### Lin Hammill

Dr. Lin Hammill is a dedicated educator, passionate about sharing mathematics with KPU students and the wider public. During a 23 year career with KPU she was the lead developer on the Application in Mathematics degree program, as well as the Minor in Mathematics. With its three streams of Computation Math, Bio-Mathematics and Math Education, the Application in Mathematics Degree was a bold proposition, but became one of the most successful degrees in the Faculty of Science and Horticulture.

After completing her Master's in Mathematics from Simon Fraser University (SFU) in 1989, Lin joined KPU as a Mathematics Instructor in 1992 and completed her PhD at SFU five years later. She served as chair of the Mathematics department at KPU from 1998 to 2000. Lin had a strong desire to see students succeed and she developed the Math Assistant Centre in 2008 as a place for students to receive one-on-one assistance from math faculty for any course. She also embraced new technology in her teaching to the benefit of her students and the wider Faculty.

Lin's primary academic focus was on mathematics education, particularly problem solving and concept acquisition in post-secondary mathematics students. Her work included a paper on The Interplay of Text, Symbols, and Graphics in Mathematics Education and a presentation on Paper Engineering and other activities for mathematics classrooms for secondary school science teachers.

A tireless ambassador for KPU, her Faculty and mathematics education, Lin was always quick to volunteer for open houses, Science Challenge, school visits and other events. She has continued to provide support since her retirement in 2015, supervising a student's senior project and assisting instructors in courses she developed.

The KPU community is grateful for the contributions of Dr. Lin Hammill to the institution and its students, and is pleased that her relationship with the university shall continue.

## DISTINGUISHED SCHOLARSHIP AWARD

### **Kent Mullinix**

The passion and expertise that Dr. Kent Mullinix has for his work is not lost on his students and colleagues. A passionate educator, researcher and scholar, Kent joined KPU from Washington State University in 2007. He established, as Director, the Institute for Sustainable Food Systems. In this role, he leads and oversees a very talented multi-disciplinary team focusing on the technical, socio-political, and environmental challenges surrounding food systems, community-based agriculture, agricultural education and regional scale issues relating to food sustainability.

He developed and oversees the Richmond Farm School and the Tsawwassen First Nation Farm School. He also led and developed the Bachelor of Applied Science, Sustainable Agriculture degree, plus the new Sustainable Food Systems and Food Security Graduate Certificates.

Kent's personal and professional devotion to food system sustainability and food security is always at the forefront of his research. ### **Dr. Larissa Petrillo**

Since 2008, Dr. Larissa Petrillo has inspired and ignited the enthusiasm of her Anthropology students at KPU. She was involved in the development of the Anthropology degree as well as the Non-Governmental Organizations and Nonprofit Studies program, and spreads awareness of those areas across the university.

Larissa, who received her PhD from the University of British Columbia in 2001, has a teaching philosophy that helps students make deeper and more critical connections from different perspectives. Her teaching philosophy emerged from learning exchanges featuring trial and error, feedback from students and team-teaching. She has been a practitioner of experiential learning for over a decade, and is a strong advocate for work-integrated learning and community-engagement.

Larissa's students attest to her inspirational teaching philosophy and style, which helps them explore difficult concepts and step outside their comfort zones. She encourages her students to leave the classroom and put what they've learned into physical projects. Larissa advocates for student volunteerism and community building, and displays the same community-mindedness herself through service to KPU's Senate, Research Ethics Board and several experiential learning initiatives.

# CONVOCATION TRADITIONS

## KWANTLEN POLYTECHNIC UNIVERSITY

### HERALDRY

The Arms of Kwantlen Polytechnic University were presented at a ceremony on May 4, 1999 by the Right Honourable Romeo LeBlanc, Governor General of Canada.

The centre shield features 'The Spirit of KPU' emblem comprising a wolf, a salmon, and a river azure as styled by Brandon Gabriel.

At the top of the blue shield, on the left side a lion and on the right a tiger facing each other in the rampant position (upright on one hind leg with forelegs outstretched as if attacking). And at the bottom of the blue shield, on the left a jaguar and on the right a Chinese dragon also facing each other in the rampant position. All are gold.

At the top in the centre, there is an open book with silver or white pages, bindings in gold and on top of it, a gold horizontal (in fess) rectangle (billet) with square bites taken out of the long sides (bretessed). In modern heraldry, this item is meant to represent a computer chip.

The crest appears above the shield, and is supported by a silver and blue twisted fabric wreath. The upper rim is set with a simple silver crown, the upper edge decorated with four salmon, looking at each other in pairs.

Supporting the arms is a green grassy mound, scattered with gold Douglas Fir cones. The mound is rising from wavy horizontal bands of blue and silver. This is the traditional heraldic representation of water - either river or ocean.

On the left is a gold female deer with blue hooves, and her bottom half is a silver fishtail with gold fins. Around her neck is a wreath of twisted silver and blue cloth. Hanging from the wreath is a green disk with an open book on it—the pages are silver; the cover is gold.

On the right is a gold eagle with a silver head, with blue talons and beak. Around his neck is a wreath like the doe's and hanging from it is a green disk with the heraldic representation of a gold computer chip.

The motto reads: Through Tireless Effort, Knowledge and Understanding.

### UNIVERSITY MACE

The mace was originally a weapon during the medieval period, and came to be associated with the prowess and strength of the knight. Today the mace is a symbol of the University's authority to award degrees and diplomas. It indicates the seriousness of convocation as the University's most important academic ceremony, and is a confirmation of the University's integrity as an academic institution. The mace is carried by a mace-bearer, who leads the processional of faculty and students in to and out of the venue where convocation is held. The mace is usually between four feet and six feet in length and will incorporate the history and tradition that surround the vision for the University.

An academic mace symbolizes the authority vested in the chancellor to confer university credentials. This is why the mace is an integral part of convocation.

Maces are often commissioned to commemorate a milestone anniversary or presidential inauguration. Typically an artist is selected for the honour to develop a highly symbolic design that incorporates the University's traditions.

KPU's mace was carved by Kwantlen First Nation artist Drew Atkins.
