#### VISION 2018,

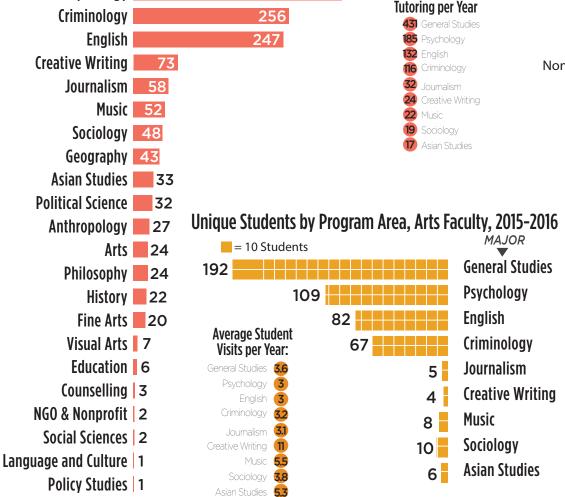

The KPU VISION 2018 Strategic Plan declares a commitment to internationalization, learner engagement, and retention. To achieve this end, the Learning Centres provide learners with support in and outside of the classroom, thereby facilitating enhanced academic success.

## **Writing & Subject Tutors**

Students may book individual appointments with a Writing tutor at the Learning Centres. Writing tutors work with students to help them develop stronger writing skills by building competencies in essential areas such as thesis development, concept organization, grammar, and self-editing techniques.

### Support for Arts Students Learning Strategists

Learning Strategists can help students develop learning skills and metacognitive strategies needed for success. This includes effective reading comprehension strategies, critical thinking, vocabulary development writing skills, personal organization, self management, and goal setting. Learning Strategists can partner with faculty to create in-class sessions or discipline-specific workshops to support students in developing the skills needed for success.

#### **Academic Skills Workshops**

Academic Skills Workshops, available on all campuses, allow students the opportunity to build study skills in an interactive learning environment. Academic Skills Workshops designed to support multilingual learners are regularly offered, and additional workshops can be scheduled on request through the semester.

#### Available workshop topics include:

- Analyzing Assignments and Projects Exam Preparation Strategies
- Sav "No" to Procrastination
- Budgeting Time for Balance
