Hello,

We are excited to announce that starting in Summer 2024, we will be upgrading Moodle to version 4.1 which will introduce an enhanced interface along with new features. In preparation for this transition, we are inviting a select group of faculty and staff members to participate in our beta testing initiative, hosted by the Teaching & Learning Commons. Your insights will be invaluable in ensuring a seamless upgrade experience for all users.

Please mark your calendar: the beta testing invitations will be dispatched on **Monday, March 11**. The testing is designed to be concise, requiring no more than 20 minutes of your time. You will also have the opportunity to share your thoughts and feedback on the new version. If you do not receive the beta test and would like to participate, please reach out to T&L Commons at tlcommons@kpu.ca and we will provide you with a test link.

We kindly ask that you complete your testing by **end of March**. Thank you in advance for your valuable contribution to this important phase of our Moodle upgrade.

Regards,

Teaching & Learning Commons
