

# ACADEMIC AND CAREER PREPARATION

## Tejinder K. Sidhu

English Upgrading (EU)

In Spring of 2014, I received a letter of acceptance for a Diploma in Accounting. To complete all the courses in the Diploma, ENGQ 1089 and 1099 were prerequisites for ENG 1100. After receiving the letter, I got registered in a couple of accounting courses and ENGQ 1089 for Summer 2014. In the first class of ENGQ 1089, I was nervous about my writing and grammar. But as soon as we began practicing some rules for sentence structure, parallelism, comma splices, fused sentences, and articles, my writing started to improve. My Prof. was the motivation for me to learn in each and every class and do extra practice. She was always ready to help after class or check our corrected homework three to four times. With the help of this course I was ready to go to ENGQ 1099. I highly recommend ENGQ courses to other students. These courses not only develop one's writings but also give confidence on how to analyze the particular topic. This course provides an excellent base for writing a four to five paragraph academic essay. I feel happy and proud of myself that I had joined this course. I can write and converse better than before. I am looking forward to going to ENGQ 1099 in Summer 2015.
